Instruction Manual P/N: 51-73112-1 / 54-73112-1 / 75-73112-1

Make: **Ford** Model: **F-150** Year: **2016** Engine: **V6-2.7/3.5L (tt) EcoBoost**

- Please read the entire instruction manual before proceeding.
- Ensure all components listed are present.
- If you are missing any of the components, call customer support at 951-493-7100.
- Ensure you have all necessary tools before proceeding.
- Do not attempt to work on your vehicle when the engine is hot.
- Disconnect the negative battery terminal before proceeding.
- Retain factory parts for future use.

Label	Qty.	Description	Part Number
A1	1	Air Filter (Pro DRY S)	21-91092
A2	1	Air Filter (PRO 5R)	24-91092
A3	1	Air Filter (Pro GUARD-7)	72-91092
B	1	Seal, Trim (15.5")	05-00072
C	1	Fitting, Air Temp Sensor	05-01336
D	1	Tube	05-73112B1
E	1	Housing	05-73112B2
F	1	Coupling, Silicone Reducer	05-01331
G	1	Coupling, Silicone Hump	05-01332
H	2	Clamp 2-1/2" - 4-1/2"	03-50006
I	1	Clamp 2-13/16" - 3-3/4"	03-50008
J	1	Clamp, 2-5/16" - 3-1/4"	03-50019
K	2	Retainer Clip	05-01350
L	1	Grommet	03-50167
M	1	Vent Insert	05-01391

Note: Legal in California for use on race vehicles only. The use of this device on vehicles used on public streets or highways is strictly prohibited in California and others states that have adopted California emission regulations.

**Figure A****Figure 1****Refer to Figure A for Steps 1-3**

Step 1: Rotate (1) temperature sensor counter clockwise then pull it out of the tube.

Disconnect the (2) wire harness clip from the air box.

Step 2: Untighten the three (3) clamps on the air intake tube. Pull the tube out of the truck.

Step 3: Remove the screw (4) and the two plastic rivets (5) securing the housing, then pull the factory air box out of the truck

**Figure B****Refer to Figure B for Steps 4-5**

Step 4: Transfer the grommet (6) from the factory air box to the aFe air box.

Step 5: Install the furnished seal trim (7) on the top edge of the aFe housing.

**Figure C****Refer to Figure C for Step 6-8**

Step 6: Install the aFe housing into the truck by pushing it into the factory mounting grommets.

Step 7: Re-install the factory screw (8) removed in step 3, inside the aFe housing.

Step 8: Secure the housing with the two furnished plastic rivets (9).

Figure D

Refer to Figure D for Step 9

Step 9: Slide aFe filter inside the housing and push it in until it locks.

Figure E

Refer to Figure E for Step 14

Step 10: Install grommet into hole in aFe tube then push the aluminum fitting in it.

Step 11: Install couplings and clamps onto tube ends. Do not tighten clamps yet.

Figure 2

Figure F

Refer to Figure F for Steps 12-14

Step 12: Install the aFe tube in the truck by sliding the couplings over the factory tube then the tube end into aFe filter.

Step 13: Align tube correctly then tighten all clamps.

Step 14: Secure the temperature sensor into the aluminum fitting by turning clockwise.
Clip the harness into the small holes (10) on the aFe housing.

Figure G

Refer to Figure G for Step 15

Step 15: Make sure all clamps and screws are tight. Remove plastic film from aFe window.
Proceed to the following pages for vent insert on 2016 models.

Vent insert installation:

**Refer to Figure H for Step 16**

(These procedures should be done with the inlet tubes installed on the engine. It is shown off the vehicle for better illustration.)

Step 16: Locate the o.e. plastic tube feeding the driver's side turbo inlet.

Refer to Figure I for Step 17

Step 17: Locate the valve cover vent tube that feeds into driver's side turbo inlet. It is not necessary to remove the engine cover.

Figure J

Refer to Figure J for Step 18

Step 18: Note the release clip on the vent tube connectors. Apply pressure against the exposed tail and pull vent fitting off of the turbo inlet tube. It is not necessary to disconnect at the valve cover end. There is a sensor and wire harness on this vent tube. Do not damage or remove these components.

INSTALL

Figure K

Refer to Figure K for Step 17

Step 17: Insert vent fitting with slash cut facing turbo inlet. It should not be a loose fit. It is direction dependent and must not rotate once installed.

Figure L

Refer to Figure L for Steps 18-19

- Step 18: Reconnect the vent fitting. It will snap over without having to release the plastic clip. Pull up slightly to confirm installation.
- Step 19: Installation is complete. Any codes can be cleared with a code reader or by disconnecting the battery. You will lose any radio presets with battery disconnection.

If removal of the vent insert is required, it can be pulled out with internal snap ring pliers.

Warranty

General Terms:

- aFe warrants their products to be free from manufacturer's defects due to workmanship and material.
- This warranty applies only to the original purchaser of the product and is nontransferable.
- Proof of purchase of the aFe product is required for all warranty claims.
- Warranty is valid provided aFe instructions for installation and/or cleaning were properly followed.
- Proper maintenance with regular inspections of product is required to insure warranty coverage.
- Damage due to improper installation, abuse, unauthorized repair or alteration is not warranted.
- Incidental or consequential damages or cost, including installation and removal of part, incurred due to failure of aFe product is not covered under this warranty.
- All warranty is limited to the repair and/or replacement of the aFe part. To request Return Goods Authorization ("RGA"), email RGA@afepower.com or call (951)493-7100. Upon receipt of the RGA, you must return the product to the address provided in the RGA, freight prepaid and accompanied with a dated proof of purchase and the RGA. Upon receipt of the defective product and upon verification of proof of purchase, aFe will either repair or replace the defective product within a reasonable time, not to exceed thirty days.

Product Category	P/N Prefix	Warranty duration
Direct OE Replacement Filters	10, 11, 30, 31, 71, 73	Life of the vehicle
Racing Filters	18	1 year
Universal	21, 24, 72	2 years
Air Intake Systems	50, 51, 54, 55, 75	2 years
Exhaust Systems	49	2 years
Intercoolers & Intercooler Tubes	46-2	2 years
Intake Manifolds	46-1	2 years
Differential Cover	46-7	Life of the vehicle
Exhaust Manifolds	46	2 years
Throttle Body Spacers	46-3	2 years
Fluid Filters	44	90 days
Pre-Filters	28	2 years
Heavy Duty OE Replacement	70	2 years
PowerSports OE Replacement	81, 87	2 years
PowerSports Intake Systems	85	2 years

No other warranty expressed or implied applies nor is any person or advanced FLOW engineering authorized to assume any other warranty. Some States do not allow the exclusion or limitation of incidental or consequential damages or do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from State to State.
